First Nations Head Start
PROJECT HOLDERS DIRECTORY LISTING

In 1995, the Government of Canada established Aboriginal Head Start to help enhance child development and school readiness of Indian, Métis and Inuit children living in urban centres and large northern communities. An expansion component of the Aboriginal Head Start program for First Nations communities was announced on October 19, 1998. This expansion was a result of commitments made in *Gathering Strength: Canada's Aboriginal Action Plan*, *Securing our Future Together*, and the September 1997 Speech from the Throne. The goal and intent is to provide funding for a focussed approach with six program components: culture and language, education, health promotion, nutrition, social support and parental involvement.

The First Nations Head Start program is designed to prepare young First Nations children for their school years by providing for their emotional, social, health, nutritional and psychological needs. This initiative encourages the development of locally controlled projects in First Nation communities that strive to instill a sense of pride and a desire to learn; provide parenting skills and improve family relations; foster emotional and social development and increase confidence.

The First Nations Head Start directory is a listing of all projects and their community sites, while the map has been created as a complimentary reference tool to illustrate the geographical vastness of this program. Both are available to all First Nations Head Start Programs, as well as any person or organization wishing to locate Head Start projects and sites.

Programme d'aide préscolaire aux Premières nations

RÉPERTOIRE DES PROJETS
2000

ISBN 0-662-86422-0
No. de cat. H21-185/2000F

Répertoire des projets du PROGRAMME D'AIDE PRÉSCOLAIRE AUX PREMIÈRES NATIONS

En 1995, le gouvernement du Canada a mis en place le Programme d'aide préscolaire aux Autochtones pour aider à améliorer le développement et la maturité scolaire chez les enfants des Indiens, des Métis et des Inuits qui vivent dans les centres urbains et dans les grandes communautés du Nord. Le 19 octobre 1998, on a annoncé l'expansion du Programme d'aide préscolaire aux communautés des Premières nations. Cette expansion découle des engagements pris dans *Rassembler nos forces : Le plan d'action du Canada pour les questions autochtones*, dans *Ensemble vers un avenir plus sûr*, et dans le discours du Trône de septembre 1997. Le nouveau programme vise à financer une démarche ciblée faisant appel à six éléments : la culture et la langue, l'éducation, la promotion de la santé, la nutrition, l'aide sociale et l'engagement parental.

Le Programme d'aide préscolaire aux Premières nations est conçu de manière à préparer les jeunes enfants des Premières nations à leurs années d'école, en tenant compte de leurs besoins émotionnels, sociaux, nutritionnels, psychologiques et de leurs besoins en matière de santé. Cette initiative encourage la mise sur pied de projets que les communautés des Premières nations contrôlent elles_mêmes et qui ont pour but d'inculquer un sentiment de fierté et un désir d'apprendre, d'aider à l'acquisition des compétences parentales et d'améliorer les relations familiales, de favoriser le développement émotionnel et social et d'accroître la confiance.

Le répertoire du Programme d'aide préscolaire aux Premières nations est la liste de tous les projets et des communautés visées. La carte a été créée à titre d'outil de référence complémentaire pour illustrer la vaste répartition géographique de ce programme. Ces deux outils sont mis à la disposition de tous les programmes d'aide préscolaire aux Premières nations, ainsi qu'à toute personne ou organisation désirant trouver des projets d'aide préscolaire et les communautés où ils ont été créés.
